EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Thomas J. Siepmann on 17 March 2006.

The application has been amended as follows:

In the claims:

Rewrite claim 1 as follows: In a process for producing a peptide or a peptide derivative by using a reaction system of transcribing a DNA into an RNA and then translating the RNA produced or a reaction system of translating an RNA *in vitro*, wherein the improvement is all protein components of the reaction system are labeled with a first substance which adheres to a second substance, and said second substance is used as an adsorbent for capturing said labeled protein components after translation of the peptide or peptide derivative to allow the separation of the produced peptide or a peptide derivative from the labeled protein components constituting the reaction system.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance: The claims are drawn to the an *in vitro* reaction system for producing peptides wherein all the protein components of the reaction system (36 different proteins) are labeled, however,

Art Unit: 1653

the protein produced by the reaction system is not labeled. The invention distinguishes over the prior art because every single protein component is labeled whereas the closest prior art usually has either one or two components of the reaction system labeled and/or the produced protein itself. To label all 36 protein components is a non-obvious variation over the prior art and thus the claims clearly are patentable. **The allowed claims are 1-17.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Suzanne M. Noakes, Ph.D. whose telephone number is 571-272-2924. The examiner can normally be reached on Monday to Friday, 7.30am to 4.00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jon Weber can be reached on 571-272-0925. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
